

# Strategic Partnership of Emergency Medical Service Practitioners for Coordination of Innovation Procurement

## EMS Network

## BACKGROUND

The EMS Network (Online Community of Practice) set out in the project builds a **broad cooperation mechanism** between practitioners and other relevant stakeholders from the Emergency Medical Services sector in Europe that will be continuously used for **needs analysis, monitoring of innovation outputs** and **facilitating a closer cooperation** of practitioners with the R&D community. This shall contribute to the **development of a Europe-wide system** enabling emergency medical specialists of different countries **enhance their capabilities** together and **steering harmonization** of the emergency medical services systems' provision throughout the European Union. A higher standard of Medical Emergency Teams throughout the EU member states and more homogeneous emergency medical systems can contribute to a more powerful Medical Emergency Corps and thus more resilient societies in scenarios of small, middle and large-scale emergencies.

The EMS Network (Online Community of Practice) is an **information hub** where users can elaborate and **analyze important areas of capability gaps**, and thus set the ground for future conception of new technological solutions. Based on the collected findings, the preparation of a subsequent **European-wide pre-commercial procurement (PCP) project** will be initiated **enabling solution providers across Europe to participate in the PCP phase** and develop innovative solutions for the EMS field.

## BENEFITS

Are you an EMS practitioner or solution provider?

Get latest news on innovation topics related to Emergency Medical Services

Highlight your organization and raise visibility among European EMS procurers

Get in touch with influential industry and practitioner stakeholders from the EMS sector

Exchange knowledge, share ideas and shape the future of EMS in Europe and beyond

## Register Now!

Become a main driver of innovation in the field of Emergency Medical Services and join the iProcureSecurity EMS Network on

## PROJECT FACTS

### Duration

05/2019 to 12/2020

### Programme

H2020-SU-SEC-2018  
SU-GM02-2018-2020  
Coordination and  
Support Action

### GRANT No.

833291

### Coordinator

SYNYO GmbH
